Art Unit: 1616

Non-Final Office Action

Claims 1-9 are pending. Preliminary amendments are entered. Claims 1, 4, 5 and 8 are allowed. Claim 3 is objected because it depends on a rejected claim. Claims 2, 6, 7 and 9 are rejected.

Closest prior art is EP 0526 206. The reference teaches the combination of the compounds of formula (I) and dithianon and various other fungicidal compounds to enhance the fungicidal activity. Compounds of formula (I) of the reference contain a cyclopentane ring; none of the present compounds contain this ring. Furthermore, prior art does not teach synergistic mixture of fungicidal combination of dithianon (A) and azoles derivatives (B) as presently claimed.

Information Disclosure Statement

The information disclosure statement filed on 12/27/2004 and 3/28/2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 9 provides for the use of the compounds of the formulae II, and I but, since the claim does not set forth any steps involved in the method/process, it is unclear what

Art Unit: 1616

method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 9 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2, 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply:

3. In claim 2 "as azole compound II" is confusing, it may be deleted.

Claims 6 and 7 are improperly dependent on two claims 1 and 6.
